ABSTRACT

Ordinarily a compilation of bibliographic references pertaining to drug abuse, this issue of the report series is a National Directory of Hotline Services--a listing of some 500 drug crises intervention programs in the United States. Program names, addresses, phone numbers, and hours of operation are provided in this directory, which is organized alphabetically by state and city. The Directory is not necessarily comprehensive for the nation, and inclusion of programs does not represent endorsement by the National Clearinghouse. Its intention is to serve as a resource in identifying hotlines throughout the country. The Directory was compiled by the National Clearinghouse for Drug Abuse Information, operated by the National Institute of Mental Health. (LK)

National Directory of Hotline Services

ED 076332

Many crisis intervention programs throughout the country operate a telephone hotline service which provides information, referrals and counseling on request. Calls received by hotlines are concerned with drug abuse problems, as well as a broad spectrum of other general and mental health problems. The National Clearinghouse for Drug Abuse Information Hotline Directory is intended as a resource for persons desiring information on operating hotlines throughout the country.

The information contained in this directory is derived from the Clearinghouse National Inventory of Drug Abuse Programs (NIDAP), which is part of a comprehensive computerized information-retrieval system covering the field of drug abuse. The information is obtained by contacting drug abuse programs to request pertinent information and materials which describe the services and functions of the program. The program responds by providing pamphlets, reports, narrative statements, completed questionnaires or audiovisual materials which are used by the Clearinghouse to prepare program descriptions. No attempts at evaluation or assessment of program effectiveness are made.

Program names, addresses, phone numbers, and hours of operation are provided in this directory, which is organized alphabetically by state and city. Programs within each city are listed alphabetically by street address. Since such information is subject to change, hotlines that were initially derived from the Clearinghouse NIDAP file were contacted by telephone during May of 1972 for verification of information.

This directory reflects only those hotlines which have responded to Clearinghouse requests for information and which have reported that they are currently operational. The directory, therefore, is not necessarily comprehensive for the nation.

The inclusion of programs in this directory does not represent endorsement of the program. This directory only intends to be a resource in identifying hotlines throughout the country.

The Clearinghouse would appreciate receiving names and addresses of additional hotlines as well as corrections for those listed. This information will be used to update this directory and will also serve as input into the NIDAP data bank. Please address all correspondence
